BUSRA SAHIN

OBJECTIVE

Aspiring Data Engineer Intern seeking to leverage my skills in web development (HTML, CSS, React.js, Node.js) and database management to contribute to innovative data-driven projects. Eager to apply my knowledge and learn from experienced professionals in a dynamic and collaborative environment.

SKILLS

- Strong interpersonal skills with a demonstrated ability to communicate effectively with diverse stakeholders.
- Detail-oriented with a commitment to accuracy in all tasks.
- Ability to design and implement data models for various analytical purposes
- Understanding of statistical concepts and their applications to data analysis

TECHNICAL EXPERTISE

- Programming Languages: JavaScript (Node.js, React.js), HTML, Python, Java, SQL, Unix, Linux
- Databases: Oracle Developer, Oracle Database Modeler
- Design Tools: Figma, Relume, Adobe XD
- Other: Development Lifecycle, Agile/waterfall methodology, Github

WORK HISTORY

UI/UX Designer, Foteza App   Oct 2024 - Present

https://www.youtube.com/watch?v=aFFylMP3_Ng

Project: Foteza is an app connecting businesses and individuals with local videographers and photographers, streamlining the hiring and media management process with AI-driven planning tools.

Responsibilities: Designed intuitive UI/UX using Figma and Adobe XD. Contributed to front-end development with HTML, CSS, React.js, and Node.js.

Methodology: Worked in a Scrum environment, collaborating with cross-functional teams for agile sprints and continuous improvement.

Impact: Enhanced user engagement with clean, user-friendly design; helped make Foteza a trusted platform for media production.

EDUCATION

Humber College – Diploma, Computer Programming.   May 2024 - Aug 2025

Coursework: Web Programming, Database Concepts & Design, Operating Systems, Python Numeric Computing, Advance Front-End Programming, Oracle Database Programming and Java Object-Oriented Programming.

Academic Highlights:

- Leading and coordinating a web project with a team of 5 for a pitch to a restaurant client. This agile-style project utilized GitHub, Java, HTML, CSS, and Bootstrap.
- Led an Oracle database project involving building a database from scratch for a client, collaborating with a team of 5 members.
- Tutored fellow students with college math for Algebra and Linear equations
